

ZDDHL无纸化问题排查

8月25日 上午11:45

api 打勾无纸化
国家没被限制无纸化
包裹类型不为文件
api 特殊服务有选无纸化
不满足基础数据无纸化限制

要满足这 5 点

OK, 明白

zddhl

API设置-提交电子发票

The screenshot displays a web browser window with multiple tabs. The active tab is titled '报价管理' (Quotation Management). The browser address bar shows the URL: `pago.itdida.com/includes/windows/baoJia/baoJia.html?view_id=0201602eebf911eab7d68ddba413e96b`. The page content includes a navigation menu with options like '报价', '运费API', '代理API', '分区', '附加费', and '排货规则'. A status bar at the top indicates '生效中 162', '已失效 539', '发出报价 14', and '收到报价 1'. A table on the right side of the page shows columns for '代理' and '代理编号', with a row containing '011' and 'J000314'. A large '编辑设置' (Edit Settings) dialog box is open in the center. The dialog box has a title bar with a close button. It contains several sections: 'lb去掉最后N张' (lb remove last N sheets) with a text input field containing '示例:1,若不需要请勿填写'; '客户单号前缀' (Customer ID prefix) with a text input field containing '客户单号增加前缀,若不需要'; '贸易条款(若选则指定)' (Trade terms) with a dropdown menu set to '默认'; '打印存档标签(若选则指定)' (Print archive labels) with a dropdown menu set to '默认'; a section for '自定义功能' (Custom functions) with a sub-section for '自定义label' (Custom label) containing dropdowns for '自定义label:' and '自定义发票:', and a checkbox for '提交电子发票:' which is highlighted with a red box; 'LB时间退后' (LB time delay) with input fields for '天' (days) and '位' (positions); 'LB不显示客户单号' (LB does not display customer ID) with a checkbox; 'LB显示客户单号后' (LB display customer ID after) with input fields; '转单号截取' (Transfer ID truncation) with input fields for '起始位数(默认第一位)' (start bits), '截止位数(默认最后一位)' (end bits), and '测试单号:' (test ID); '默认LB材积重比例' (Default LB volume weight ratio) with input fields for '长' (length), '宽' (width), and '高' (height); '申报运费' (Declare freight) and '申报文件' (Declare file) sections, each with '申报品名' (declare item name) and '申报公式' (declare formula) fields; and a '+ API返回修改' (API return modification) section. At the bottom of the dialog box are '取消' (Cancel) and '确定' (Confirm) buttons. The Windows taskbar at the bottom shows the system tray with the date '2020/9/1' and time '10:19', along with icons for QQ, WeChat, and other applications.

基础数据国家无纸化限制

国家	电子词典	录单限制	问题件模板	汇率	触发器	轨迹模板	号码规则	号码段	收件人	寄件人	品名管理	偏远表
⚙️	<input type="checkbox"/>	US	✕	中文				英文				
1	<input checked="" type="checkbox"/>	US		美国				U.S.A.				
2	<input type="checkbox"/>	USE		美国东岸				US-E				
3	<input type="checkbox"/>	USM		美国中岸				US-M				
4	<input type="checkbox"/>	USW		美国西岸				US-W
